

Gardening Club

Make a fairy or gnome garden

Let your imagination run wild and create your very own Fairy or gnome garden. Think about the natural materials you can use and how you want your garden to look, there are lots of ideas here, [100 Best DIY Fairy Garden Ideas - Prudent Penny Pincher](#) send us a picture of your finished creation!

Animal lovers Club

Caring for your rabbit

Rabbits are rewarding and popular pets. Like all other animals they need lots of time and attention, but what sort of things should you be looking out for if you decide to have a pet rabbit (or 2)? Do some research or look at this website [How to look after a rabbit | Behavioural tips | Blue Cross](#) and then write a list, draw a picture or design a poster as evidence of your research

Mad Science Club

Colour changing flowers

This experiment shows how plants and flowers drink water and where the water goes. All you need are some white flowers, several pots and a few different food colourings. Full instructions are here [Science experiment with colour changing flowers - Laughing Kids Learn](#) Send us a picture of your flowers at the end!

Personal Best Challenge with South Sefton

School Sports Partnership!

Roll it Out

Place 2 markers about 1m apart
Stand 10 steps away
Roll a ball to see if you can get it between the markers
If you do, move the markers closer together
Keep moving them closer together, what is your record?

You can choose to take part in as many clubs as you like. Each activity is worth 1 Children's University credit. When you have completed an activity send your evidence to me laura.ashcroft@elevate-ebp.co.uk
